

Airport

At the airport the wheelchair users can pass the security control without activating the metal detector

Easy Roller Airport (ERA) is an manual wheelchair made from 100% environment friendly ABS plastic. The wheelchair is especially designed for use at airports.

Normal wheelchairs contain metal which activate the metal detector at airports. Easy Roller is free of metal and makes sure that wheelchair users can easily pass the security control at airports.

Easy Roller has no parts that can be removed and therefore demands very little maintenance. The wheelchair is also of good quality when it comes to driving and turning.

The back, the seat and the armrests are upholstered, and combined with the footrest, the sitting comfort is excellent.

Functions/equipment:

Standard: Parking brakes - tilting security - footrest - clothes protection - driving handles

Extra: Safety belt - leg rest

Easy Roller is tested and approved due to international standards and directives for manual wheelchairs.

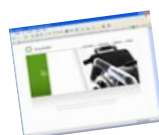

Technical data Easy Roller Airport

Pool

In swimmingpools Easy Roller will not be damaged by the chlorinated water

Easy Roller Pool (ERP) is an manual wheelchair made from 100% environment friendly ABS plastic.

The wheelchair is especially designed for use in swimmingpool.

Regular wheelchairs contains metal which will be damaged by the chlorinated water in swimmingpools. Easy Roller Pool is the first metal free wheelchair special designed for swimmingpools, and frame and wheel bearings will therefore not rust. Ceramic tiles will not be exposed to and damaged by rusty water.

The frame of the wheelchair has hole which rapidly fill the frame with water, making pool access easy. By driving up from the pool, the frame will empty rapidly. A pool weight will give even better stability for the chair at the bottom of the pool.

Easy Roller Pool has no parts that can be removed and it demands very little maintenance. The wheelchair is also of good quality when it comes to driving and turning.

Functions/equipment:

Standard: Parking brakes - tilting security - footrest - driving handles

Extra: Safety belt - leg rest - pool weight (4 kg)

Easy Roller is tested and approved due to international standards and directives for manual wheelchairs.
